# The Nippon Foundation-GEBCO Seabed 2030 Project

## Save-the-dates

We invite you to

### The Fourth Arctic-Antarctic and North Pacific Mapping Meeting

hosted by Stockholm University, Sweden

Dates: 21<sup>st</sup> to 24<sup>th</sup> March 2022

This meeting continues the series of mapping meetings organized and hosted by the Nippon Foundation-GEBCO-Seabed 2030 regional centers that started in 2018.

It is hoped that for this year's Arctic-Antarctic and North Pacific Mapping Meeting we can have a hybrid meeting where there is an option to attend in person in Stockholm, Sweden. If necessary, we will switch to a completely virtual meeting. Further logistical and registration details will follow.

### The goals of the meeting are to:

- Review the progress made since the last Seabed 2030 Arctic-Antarctic and North Pacific Mapping Meeting in 2020. This includes the status of **IBCAO** and **IBCSO**.
- Identify new bathymetric data sources
- Develop strategies to locate and unlock bathymetric data sets
- Develop strategies to coordinate and promote new mapping activities

For specific questions, please contact: Arctic: [martin.jakobsson@geo.su.se](mailto:martin.jakobsson@geo.su.se) North Pacific: [larry@ccom.unh.edu](mailto:larry@ccom.unh.edu)  
Antarctic: [boris.dorschel@awi.de](mailto:boris.dorschel@awi.de)
