# SEABED 2030

## Safe-the-Date

### Third Seabed 2030 Arctic – Antarctic – North Pacific Mapping Meeting

15<sup>th</sup>/16<sup>th</sup> December 2020

*Organised by the Alfred Wegener Institute Bremerhaven, Stockholm University and the Center for Coastal and Ocean Mapping University of New Hampshire*

#### To the Arctic-Antarctic and North Pacific Mapping Community,

We invite you to participate in the third Seabed 2030 **Arctic-Antarctic and North Pacific Mapping Meeting** held virtually at the 15<sup>th</sup> and 16<sup>th</sup> of December 2020.

This meeting continues the series of mapping meetings hosted by the seabed 2030 regional centers that has started in 2018. Due to the special circumstances of the Covid-19 pandemic, this year's Arctic-Antarctic and North Pacific Mapping Meeting will be held in a virtual format allowing the global mapping community to participate. Dial-in details and the detailed meeting programme will follow shortly.

The goals of the meeting are to:

- Review the progress made since the last Seabed 2030 **Arctic-Antarctic and North Pacific Mapping Meeting** in 2019
- Identify new bathymetric data sources
- Develop strategies to locate and unlock data sets for seabed 2030
- Discuss Covid-19 implications and opportunities
