PACIFIC@SEABED2030.ORG

The Seabed 2030 Indo-Pacific Ocean Mapping Meeting & Data Sprint will advance coordinated ocean mapping efforts across the region

Why sponsor the meeting?

Participating as a sponsor provides direct access to an international audience, with over 100 attendees expected in person and additional participants joining online, including representatives from:

- Hydrographic offices
- Academic institutions
- Research organisations
- Industry
- Government agencies

Key benefits include:

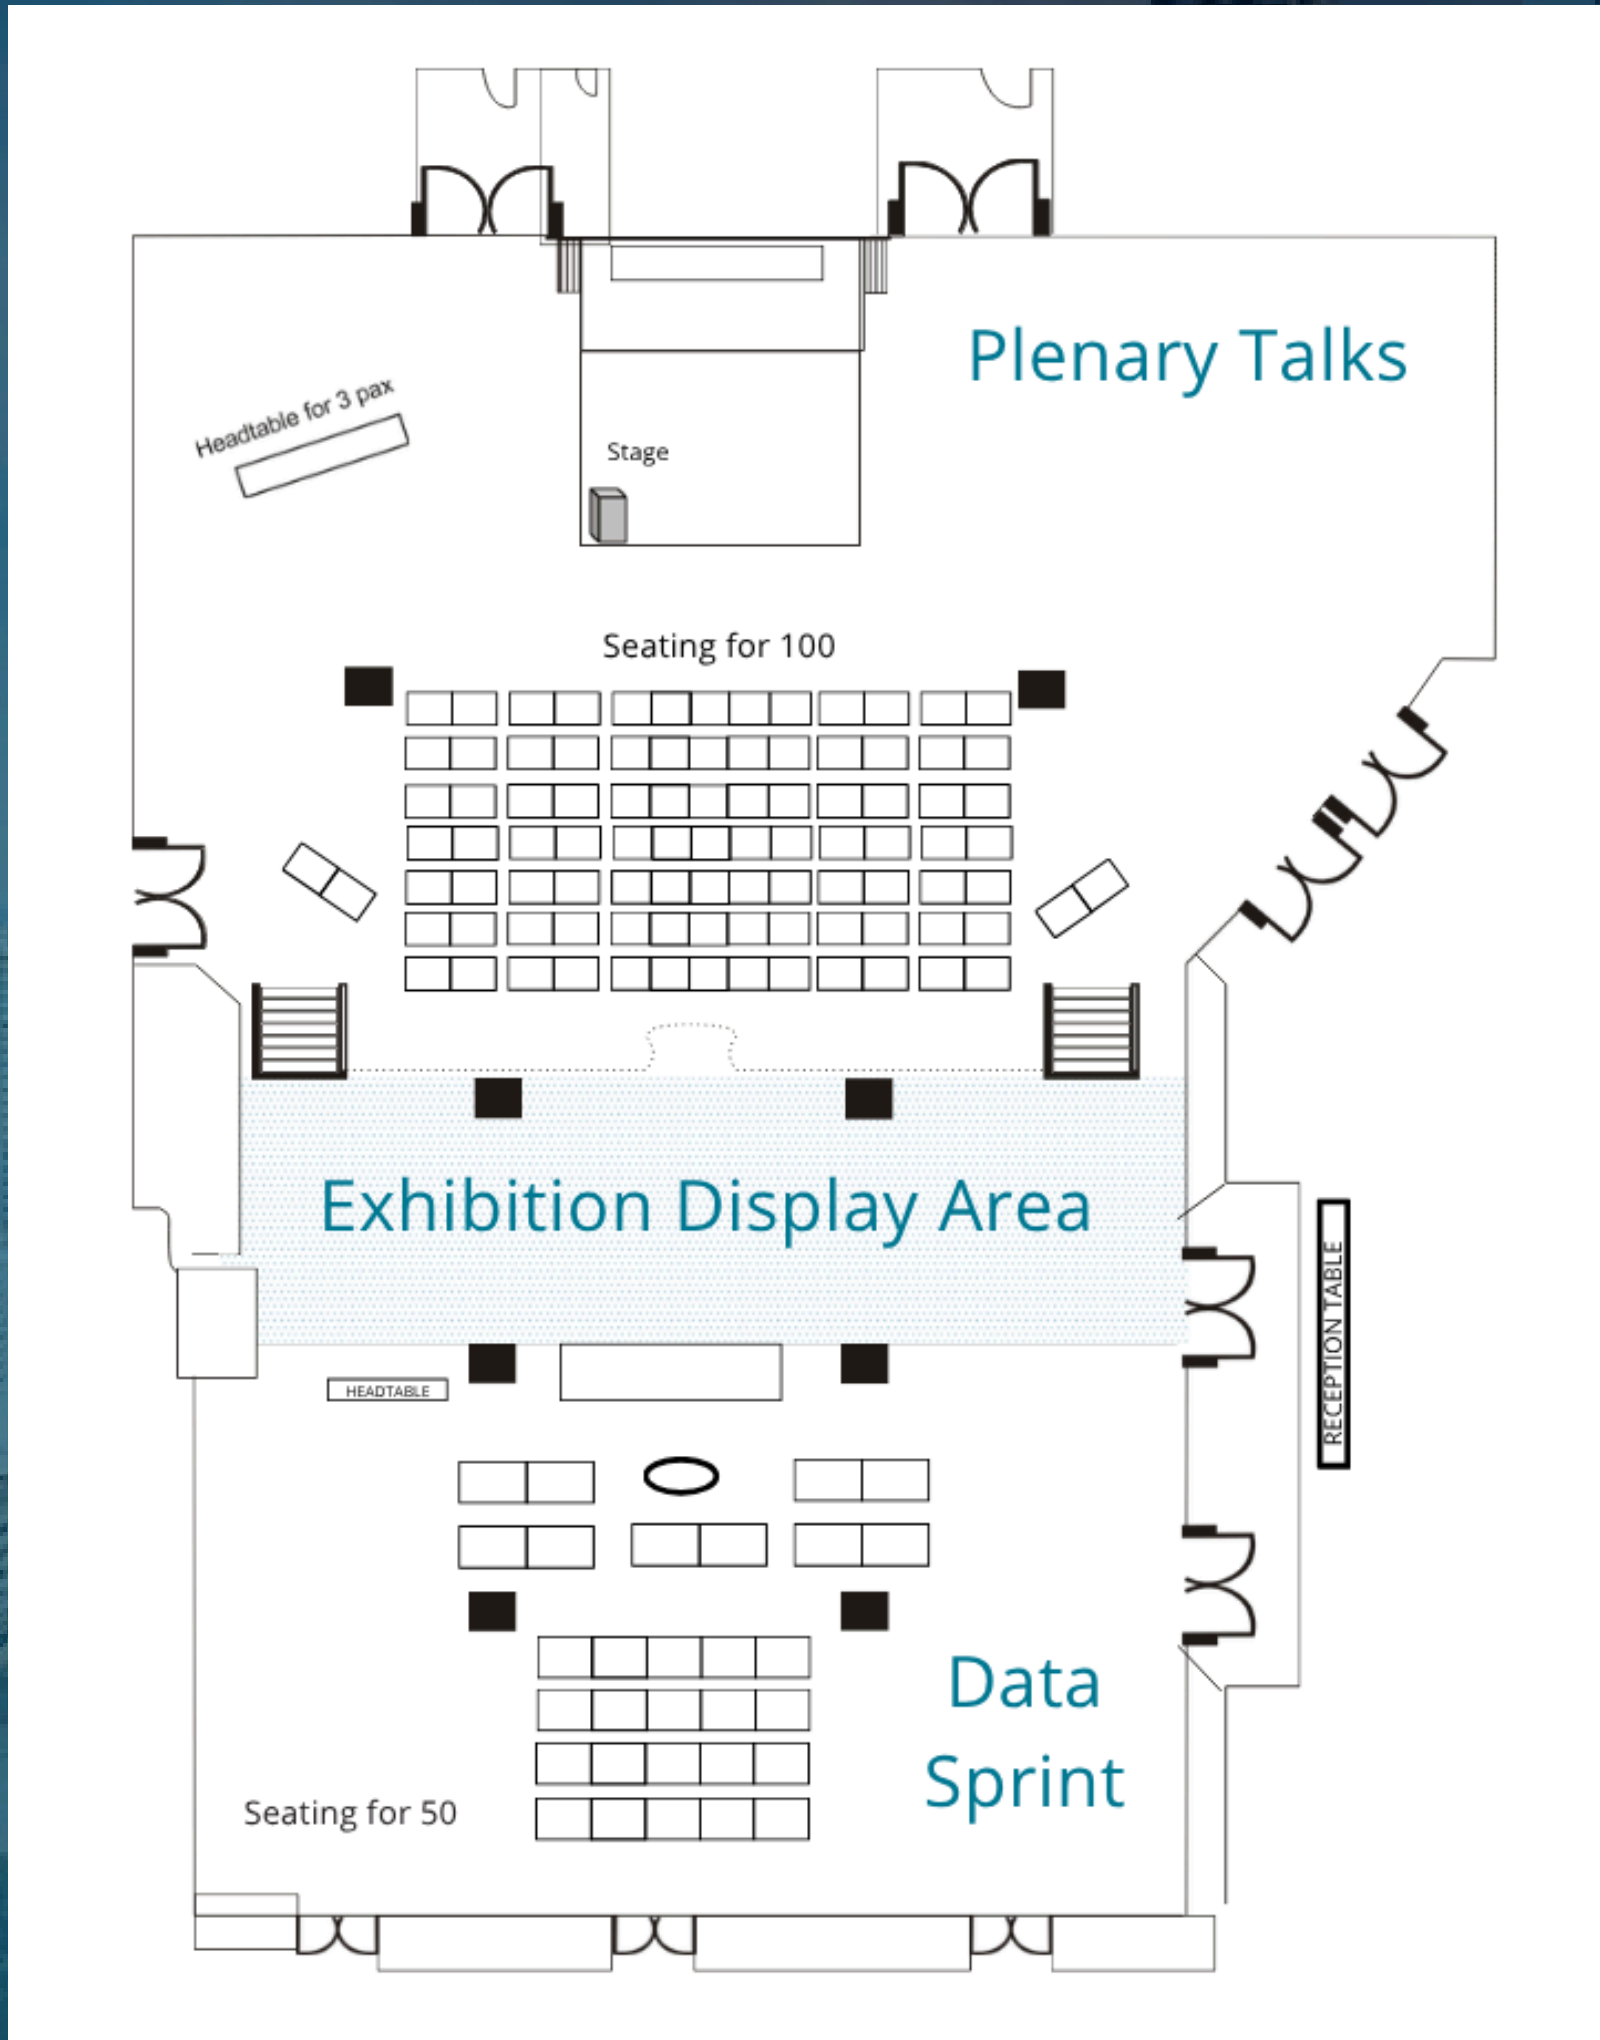

- Face-to-face engagement with your target audience
- Strengthen relationships with existing customers
- Showcase and launch new products and services
- Enhance brand visibility and recognition
- Enable an inclusive meeting: sponsorship funds travel for attendees who wouldn't otherwise be able to join
- Support Seabed 2030's mission to inspire the complete mapping of the world's ocean
